PRO-TECH DESIGN AND MANUFACTURING

PRO-TECH Design and Manufacturing is a full-service manufacturer of sewn products for the medical industry.

An ISO-registered contract packager, PRO-TECH offers innovative, cost-effective solutions for your medical packaging, assembly and sewn product needs. Our manufacturing facilities — based in Santa Fe Springs, California and Arlington, Texas — specialize in contract packaging, product design, labeling, validation, sterilization and sewn products.

At PRO-TECH, we have been providing quality and reliable service to the medical industry for 40 years. Our dedicated experts are focused on reducing your cost and time to market and becoming a long-term partner in meeting your ongoing needs.

PROJECT MANAGEMENT

At PRO-TECH, we believe our job is to make yours easier. Our skilled professionals are here to help with:

- ISO-registered quality systems
- U.S. and OUS manufacturing
- Complete product management, from design inception through timely deliveries

SEWN PRODUCTS

Using a wide variety of materials and leveraging automated sewing equipment, we produce custom-designed medical device wear and carry items and sales presentation kits that ensure stylish, functional, and long-lasting protection for your products and devices.

STYLES AND CASES

- Soft sided
- Device wear items and garments
- Pressure formed
- Event monitoring
- Sales presentation

MATERIALS

- Nylon
- Lycra
- Polyester
- Neoprene
- Leather
- Vinyl

COMPLETE DESIGN

Our skilled engineers and sample makers specialize in the art of collaboration, partnering with you to create a design that satisfies your requirements. We generate concept samples quickly and efficiently based on your device, solid models or drawings.
